

Women and Jewels.

Jewels, candy, flowers, man—that is the order of a woman's preferences. Jewels form a magnet of mighty power to the average woman. Even that greatest of all jewels, health, is often ruined in the strenuous efforts to make or save the money to purchase them. If a woman will risk her health to get a coveted gem, then let her fortify herself against the insidious consequences of coughs, colds and bronchial affections by the regular use of Dr. Boschee's German Syrup. It will promptly arrest consumption in its early stages and heal the affected lungs and bronchial tubes and drive the dread disease from the system. It is not a cure all but it is a certain cure for coughs, colds and all bronchial troubles. You can get Dr. G. G. Green's reliable remedies at W. T. Brooks'. Get Green's Special Almanac.

The Burlington's California Excursions; Personally Conducted.

Every Wednesday night from St. Louis and Chicago the Burlington's Personally Conducted Tourist Sleeper Excursions leave for California. In addition to the protection of special conductors, the crowning feature is the route through Scenic Colorado and Salt Lake City. These Excursions are a fixture in the Burlington's passenger service.

Very Cheap to California and Return.—Much less than half rates are made September 19th to 27th, inclusive. Final return limit, November 15th.

Homeseekers' Excursions to the West and Northwest.

Including Nebraska, Kansas, Colorado, Utah, Montana, California, Washington, Oregon and the Dakotas. September 3d and 17th are the selected dates for these great Autumn Excursions. The Burlington has the best trains to Kansas City, St. Joseph, Omaha, Denver, St. Paul and Minneapolis.

Do us the favor to write for Burlington descriptive matter; outline your trip and let us advise you the least cost. Any ticket agent can sell via the Burlington; it is the greatest railroad within the Louisiana Purchase; it is the main traveled line to the West and Northwest. Of its 8,160 miles of railroad, 5,000 miles are main lines.

FOR THE HOUSEWIFE

"Mission Style" Furniture.

The very newest thing in the way of furniture is called the "mission style" and was first suggested to the inventor by seeing an old Spanish mission chair brought from California in 1894. Its quaint outlines and interesting construction indicate the possibility of a scheme of handmade furniture built on the old early English architectural lines. Its name, "mission furniture," is aptly applied. There is a restfulness to the eye and hand in the different pieces, and, though generally straight in line, there is nothing angular in effect.

Persons accustomed to lavishly carved framework might not approve of its unconventional and simple structure. Built of native ash, stained in browns, grays and greens, it is guiltless of ornament, and no carving, not even a molding, diverts attention from the severely straight lines. There are solid looking chairs for the dining room with rush and leather bottoms, quaintly shaped writing tables for the library, cabinets for china and all sorts of comfortable rockers in which to indulge in an afternoon siesta.

Preserving Plums.

To preserve green plums allow to every pound of fruit one pound of fine granulated sugar and one gill of cold water; boil the sugar and water together for about ten minutes, skimming carefully; divide the green plums and take out the stones, putting the fruit into the sirup, and let it simmer until tender; take it off the fire, pour into some large earthen dish and let stand until the next day. In the meantime take the kernels from the stones, blanch them, and when the preserve is returned to the kettle the next day add these kernels; set over the fire and boil for ten minutes, skimming carefully. At the end of that time pack the fruit in glass jars, pour the juice over it, cool and seal.—Sallie Joy White in Woman's Home Companion.

Sash Curtains.

In many houses short window blinds are absolutely necessary, sometimes for one reason, sometimes for another. A simple and inexpensive sash curtain, which will serve both as a blind and a decoration, is shown in the illustration. It is entirely of pale green china silk, with festoons and bow and end

SIMPLE BUT PRETTY.

also of silk. The casing for the ribbon to gather it up is a band of silk sewed on, and buttonholed spaces are worked in it so that the ribbon is threaded in and out. The ribbon may be the same color as the silk or a pretty contrast, and for a room in which work, either writing or needlework, has to be done it is well not to have the silk too thick or of too dark a shade, though in summer a soft leaf green looks deliciously cool and shady, but in winter's chill days something more conducive of warmth is preferable.

Waste in Cooking.

Professor Marshall, the noted English economist, estimates that \$500,000,000 is spent annually by the British working classes for things that do nothing to make their lives nobler or truly happier. At the last meeting of the British association the president in an address to the economic section expressed his belief that the simple item of food waste alone would justify the above mentioned estimate. One potent cause of waste today is that very many of the women, having been practically brought up in factories, do not know how to buy economically, and are neither passable cooks nor good housekeepers. It has been estimated that in the United States the waste from bad cooking alone is over \$1,000,000,000 a year!—Success.

Tomato Jelly.

Tomato is one of the most wholesome of summer vegetables. The Delineator gives directions for preparing a tomato jelly which makes a dainty salad. Care must be taken not to use too much gelatin or the salad will lose its flavor. Peel and stew the tomatoes. Soften an ounce of gelatin in half a cupful of cold water, add to a quart of hot tomato pulp and stir until dissolved. Add a tablespoonful of salt, a tablespoonful of onion juice and a tablespoonful of paprika. Strain through a fine sieve and pour into a mold to harden. This may be molded as fancy dictates. A pretty method is to mold it in tiny brick forms. Small oblong paper boxes may be used. When firm, turn out, dot with mayonnaise and serve on lettuce.

How to Remove Iron Mold.

Iron mold may be removed from linen by wetting the article, then laying it on a metal surface, while a spoonful of salts of lemon is rubbed over the surface. Rinse well, and the blemishes will at once disappear.

Brain Food Nonsense.

Another ridiculous food fad has been branded by the most competent authorities. They have dispelled the silly notion that one kind of food is needed for brain, another for muscles, and still another for bones. A correct diet will not only nourish a particular part of the body, but it will sustain every other part. Yet however good your food may be, its nutriment is destroyed by indigestion or dyspepsia. You must prepare for their appearance or prevent their coming by taking regular doses of Greens August Flower, the favorite medicine of the healthy millions. A few doses aids digestion, stimulates the liver to healthy action, purifies the blood, and makes you feel buoyant and vigorous. You can get Dr. G. G. Green's reliable remedies at W. T. Brooks'.
